

	Control	Group B	p-value
The nuclear diameter of granule cells.	518.82±107.2	470.8±71	P>0.05

**Table (1):** showing the mean value± standard deviation of the nuclear diameter of granule cells in both control and group B

P> 0.05 → no significant difference.

	Control	Group C	p-value
The nuclear diameter of granule cells.	518.82±107. 2	370.65±83 <sup>(***)</sup> *)	P≤0.000

**Table (2):** showing the mean value± standard deviation of the nuclear diameter of granule cells in both control and group C

P≤0.000 (\*\*\*) → Very high significant difference.
