Figure 1: Representative IHC Staining of VCAM-1 (A) Placenta as positive control with VCAM-1 overexpression, (B) IDC-NST (grade III) showing cytoplasmic VCAM-1 overexpression, (C) IDC-NST (grade II) with –ve/low expression of VCAM-1, (D) Medullary carcinoma with cytoplasmic VCAM-1 overexpression. Original magnification is 200X in D and 400X in others.
Graph 1: Correlation of VCAM-1 Expression with Tumor Grade (A) and Lymph Node Status (B).
