

Table (1) Shear wave between cases and controls

	Group	N	Mean	Std. Deviation	Std. Error Mean
Shear wave	Case	30	41.750	11.5413	2.1072
	Control	10	16.500	3.6591	1.1571

T test = 10.504, p value <0.001 (HS)

This table shows that the Shear wave was significantly higher among cases compared to controls.
