

Table (1) Comparison between midazolam and tramadol group as regard onset and duration.

Variables	Midazolam	Tramadol	P value
Onset of sensory block	22.73±1.68	23.1±1.73	0.41
Onset of motor block	45.2±2.96	46.5±2.97	0.10
Duration of surgery	126.04±53.08	116±47.09	0.48
Duration of analgesia	650±47.49[*]	508±30.44	<0.0001
Duration of sensory block	510±30.51	498±32.10	0.14
Duration of motor block	416±49.66	392±68.20	0.12

Data presented as mean ±SD (standard deviation).

[^] *Significant difference P value < 0.05.*

^{*} *Highly significant difference, P value < 0.0001.*
